

**RECOVERY SUMMMER UPDATE:
PRIVATE SECTOR JOBS IMPACT
08102010**

ARRA PRIVATE SECTOR JOBS IMPACT

With the national unemployment rate hovering near 9.5%, state and municipal governments are searching for the capital required to extend support of existing public sector jobs and bolster regional private sector growth. To date, ARRA funding has provided quantifiable, although temporary, relief to the public sector but the impact on the private sector has been difficult to measure. Onvia captures the contract award details at all levels of government required to paint a fact based picture of the benefit to businesses. The accompanying heat map provides a state-by-state analysis of ARRA-funded private sector job support to-date along with anticipated future job support based on allocated but yet unspent Recovery funds. At the national level, Onvia is tracking 715,000 private sector jobs supported thus far from ARRA related contract awards with expected growth of 27% as capital continues to reach regional economies in the form of product and service contracts.

ARRA JOBS SUPPORTED

ABOUT ONVIA

For more than 12 years Onvia (NASDAQ: ONVI), the gBusiness Innovator, has been successfully delivering the research, analytics and tools required for companies to succeed at the intersection of business and government: the gBusiness market. Onvia tracks, analyzes and reports the spending of more than 89,000 federal, state and local government agencies, giving companies a single source for conducting open, intelligent and efficient business with government. Along with providing an exclusive suite of integrated business tools, Onvia is also the creator of Recovery.org, a website that tracks Recovery Act-funded projects, and DemandStar, the automated system that streamlines agency procurement processes. For information about Onvia visit www.onvia.com.
